### DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or make obvious the claimed firing module. Specifically, the prior art fails to show a firing module with a rotatable housing; a weapon mounted in the housing on a trunnion; an automatic shell supply mechanism as claimed with a shell transfer arm, mounted on the trunnion, with a shell ram having a pivoting loading tray; a shell transporter as claimed with a shell transport arm with a gripping mechanism to grasp vertical shells in an ammunition magazine and supply the loading tray with the shell; a propellant charge magazine; an automatic propellant charge supply mechanism that supplies propellant to the weapon with a propellant charge supply tray and ram; where the ammunition magazine and the shell transporter are located ahead of the trunnion; the shell transfer arm and loading tray pivots from a receiving position ahead of the trunnion and a loading position behind the trunnion; the propellant charge magazine is next to or behind the trunnion; and where the propellant charge supply tray is pivotable into a region behind the weapon.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 11-21 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Domeij, Panek et al, Engstrom, Muhlhausen et al, Schiele et al, and Zielinski et al are cited as being of interest since they disclose firing and ammunition transfer systems for weapons.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Woodrow Eldred whose telephone number is 571-272-6901. The examiner can normally be reached on Monday to Thursday, from 8:00 a.m. to 5:30 p.m..
